

PRECISION MICROWAVE CONNECTORS, BULK CABLE & CABLE ASSEMBLIES  
135 Ward Hill Avenue • Haverhill, MA 01835

1/25/22

Reference: **REACH & RoHS Compliance**

Dynamwave is pleased to confirm that the substances referenced in the current EU REACH regulation January 2022 (223 SVHC's) above the 0.1% (w/w) content are not knowingly added to or employed in the design and fabrication of Dynamwave connectors, standard cable and/or standard cable assembly products.

Dynamwave also complies with the RoHS 2 directive (2011/65/EU). These substances are not knowingly added to or employed in the design and fabrication of Dynamwave connectors, cable and/or cable assembly products unless otherwise specified within the product SCD, catalog or website specifications.

Dynamwave connectors, standard cable and/or standard cable assembly products are compliant to the RoHS 3 directive (EU 2015/863) which was implemented on July 22, 2019. We currently do not knowingly produce or manufacture Dynamwave product that contains any of the substances above the limits listed in the RoHS 3 directive.

The only exception to this would be a subset of parts from Dynamwave's new Semirigid product line (PN HC X000-Y-Z ) that have an outer conductor finish code (Z) of 4 (60/40 Tin Lead plating per Mil-P-81728) or code (Z) of 5 ( 90/10 Tin Lead Plating per Mil-P-81728).

Our customers will be notified whenever a REACH or RoHS requirement cannot be met as specified within a purchase order or product specification.

Please do not hesitate to contact Dynamwave should you have further questions.

Sincerely,

*Laura Sullivan*
